REPAIRING MARINE COMPOSITES WITH WEST SYSTEM® EPOXY

Three-day professional workshop
presented by the Gougeon Brothers
technical experts

FEBRUARY 27-29, 2024

ABOUT THE COURSE

WHO SHOULD ATTEND

Led by our experienced technical experts, this course aims to equip you with a deeper understanding of composite repair techniques. You will learn how to effectively tackle various repair challenges and master the use of WEST SYSTEM® products throughout each phase of the repair process, from laminating to fairing.

BY PARTICIPATING IN THIS COURSE, YOU CAN EXPECT TO:

- Strengthen your skills: Gain hands-on experience and practical knowledge that will help you excel in composite repairs.
- Stay up-to-date: Learn about the latest advancements in composite structures and how they impact repair methods.
- Improve efficiency: Discover time-saving techniques that can streamline your repair processes.
- Enhance durability: Acquire insights into best practices for achieving long-lasting repairs using WEST SYSTEM products.
- Network with industry professionals: Connect with like-minded individuals who share your passion for composite repairs.

To ensure a personalized learning experience, we have a limit of 12 participants. Therefore, we encourage you to secure your spot as soon as possible.

THE COST TO ATTEND IS \$795 AND INCLUDES:

- Eighteen hours of instructional and hands-on learning
- Hotel accommodations for three nights
- Lunch for three days and one night's dinner at a local eatery
- Complimentary gift including comprehensive manuals and WEST SYSTEM product kit

CANCELLATION POLICY

If you must cancel, we'll refund your payment in full up to seven days before the course date. Cancellations made closer to the course date will be prorated.
