SECTION 1: Identification

Identification
Product name: WEST SYSTEM® 206 Slow Hardener

Relevant identified uses of the substance or mixture and uses advised against
Recommended use: Curing agent for epoxy resins

Details of the supplier of the safety data sheet
Gougeon Brothers, Inc
100 Patterson Ave.
Bay City, MI 48706 - U.S.A.
T 866-937-8797 or 989-684-7286
www.westsystem.com

Emergency telephone number
Emergency number: CHEMTREC 1 (800) 424-9300
CHEMTREC International +1 (703) 527-3887 24 hr

SECTION 2: Hazard(s) identification

Classification of the substance or mixture
Acute Tox. 4 (Oral)
Skin Corr. 1B
Eye Dam. 1
Skin Sens. 1
STOT SE 3
Aquatic Acute 3
Aquatic Chronic 2

Label elements
Hazard pictograms (GHS):
- GHS05
- GHS07
- GHS09

Signal word (GHS): Danger

Hazard statements (GHS):
Harmful if swallowed. Causes severe skin burns and eye damage. May cause an allergic skin reaction. May cause respiratory irritation. Harmful to aquatic life. Toxic to aquatic life with long lasting effects

Precautionary statements (GHS):
Do not breathe dust, fume, gas, mist, vapours, spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Contaminated work clothing must not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves, protective clothing, eye protection, face protection. If swallowed: rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Wash contaminated clothing before reuse. Collect spillage. Store in a well-ventilated place. Keep container tightly closed. Store locked up. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation

Other hazards
No additional information available

Unknown acute toxicity
No additional information available

The exact chemical identity and/or exact percentage (concentration) of each ingredient may be held as confidential business information (CBI). Any ingredient not disclosed in this section may have been determined not to be hazardous to health or the environment, or it may be present at a level below its disclosure threshold.

SECTION 4: First aid measures

Description of first aid measures

First-aid measures after inhalation: If inhaled and if breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

First-aid measures after skin contact: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or doctor/physician.

First-aid measures after eye contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses, if worn. Get medical attention immediately.

First-aid measures after ingestion: If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Immediately call a POISON CENTER or doctor/physician.

Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: May cause respiratory irritation.

Symptoms/injuries after skin contact: Causes severe burns. Symptoms may include redness, pain, blisters. May cause an allergic skin reaction.

Symptoms/injuries after eye contact: Causes serious eye damage. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling. May cause burns.

Symptoms/injuries after ingestion: Harmful if swallowed. May cause burns or irritation of the linings of the mouth, throat, and gastrointestinal tract. May cause stomach distress, nausea or vomiting.

Indication of any immediate medical attention and special treatment needed
Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

SECTION 5: Firefighting measures

Extinguishing media

Unsuitable extinguishing media: Do not use a heavy water stream.

Special hazards arising from the substance or mixture

Fire hazard: Products of combustion may include, and are not limited to: oxides of carbon, oxides of nitrogen, amines, ammonia, nitric acid, nitrosamines. When mixed with sawdust, wood chips, or other cellulosic material, spontaneous combustion can occur under certain conditions. Heat is generated as the air oxidizes the amine. If the heat is not dissipated quickly enough, it can ignite the sawdust.

Reactivity: No dangerous reaction known under conditions of normal use.

Advice for firefighters

Protection during firefighting: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).
SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

General measures: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

For non-emergency personnel
No additional information available.

For emergency responders
No additional information available.

Environmental precautions
Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

Methods and material for containment and cleaning up

For non-emergency personnel
No additional information available.

For emergency responders
No additional information available.

Methods for containment: Stop leak if safe to do so. Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).

Methods for cleaning up: Scoop up material and place in a disposal container. Provide ventilation.

Reference to other sections
See section 8 for further information on protective clothing and equipment and section 13 for advice on waste disposal.

SECTION 7: Handling and storage

Precautions for safe handling

Precautions for safe handling: Do not get in eyes, on skin, or on clothing. Do not breathe vapours, mist. Do not swallow. Handle and open container with care. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. When mixed with epoxy resin this product causes an exothermic reaction, which in large masses, can produce enough heat to damage or ignite surrounding materials and emit fumes and vapors that vary widely in composition and toxicity.

Hygiene measures: Launder contaminated clothing before reuse. Wash hands before eating, drinking, or smoking.

Conditions for safe storage, including any incompatibilities

Storage conditions: Keep out of the reach of children. Keep container tightly closed. Store in a dry, cool and well-ventilated place. Storage temperature: 40°F (4°C) - 90°F (32°C). Keep away from heat and direct sunlight.

SECTION 8: Exposure controls/personal protection

Exposure controls

Appropriate engineering controls: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.
**SECTION 9: Physical and chemical properties**

**Information on basic physical and chemical properties**

- **Physical state**: Liquid
- **Appearance**: No data available.
- **Colour**: Colourless
- **Odour**: Ammonia
- **Odour threshold**: No data available
- **pH**: 11
- **Melting point**: No data available
- **Freezing point**: No data available
- **Boiling point**: > 400 °F (204°C) (estimated based on similar product)
- **Flash point**: > 200 °F (93°C) (estimated based on similar product)
- **Relative evaporation rate (butylacetate=1)**: No data available
- **Flammability (solid, gas)**: Not flammable
- **Vapour pressure**: < 1 mm Hg @ 20°C (estimated based on ingredient data)
- **Relative vapour density at 20 °C**: No data available
- **Relative density**: 1.01
- **Solubility**: No data available
- **Partition coefficient n-octanol/water**: No data available
- **Auto-ignition temperature**: No data available
- **Decomposition temperature**: No data available
- **Viscosity, kinematic**: 65.6 mm²/s @ 104 °F (40 °C)
- **Viscosity, dynamic**: No data available
- **Explosive limits**: No data available
- **Explosive properties**: No data available
- **Oxidising properties**: No data available
- **Other information**

**VOC content**: 9.59 g/L (0.08 lb/gal)

**Bulk density**: 8.45 lb/gal (1.01 kg/L)

**SECTION 10: Stability and reactivity**

**Reactivity**: No dangerous reaction known under conditions of normal use.

**Chemical stability**: Stable under normal storage conditions.

**Possibility of hazardous reactions**: No dangerous reaction known under conditions of normal use. A mass of more than one pound of product plus an epoxy resin will cause irreversible polymerization with significant heat buildup and pressure.

**Conditions to avoid**: Heat. Incompatible materials.

**Incompatible materials**: Acids. Oxidizing materials. Halogenated compounds.

**Hazardous decomposition products**: May include, and are not limited to: oxides of carbon. Oxides of nitrogen. Amines. Ammonia. Nitric acid. nitrosamines. ETHYLENEDIAMINE.

**SECTION 11: Toxicological information**

**Information on toxicological effects**

* LD50 data has been generated for this substance by subjecting rats to an airborne aerosol/mist atmosphere in a test chamber. It has not been determined that this data directly correlates to an inherent hazard of this product as would be expected under normal, foreseeable or anticipated conditions of use.

**Acute toxicity (oral)**: Harmful if swallowed.

**Acute toxicity (dermal)**: Not classified.

**Acute toxicity (inhalation)**: Not classified.

**Skin corrosion/irritation**: Causes severe skin burns

**Serious eye damage/irritation**: Causes serious eye damage.

**Respiratory or skin sensitization**: May cause an allergic skin reaction.

**Germ cell mutagenicity**: Not classified.

**Carcinogenicity**: Not classified. No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA, NTP or IARC.

**Reproductive toxicity**: Not classified.

**STOT-single exposure**: May cause respiratory irritation.

**STOT-repeated exposure**: Not classified.

**Aspiration hazard**: Not classified.

WEST SYSTEM® 206 Slow Hardener

| Viscosity, kinematic (calculated value) (40 °C) | 65.6 mm²/s @ 104 °F (40 °C) |

**Potential adverse human health effects and symptoms**: Harmful if swallowed.

**Symptoms/injuries after inhalation**: May cause respiratory irritation.

**Symptoms/injuries after skin contact**: Causes severe burns. Symptoms may include redness, pain, blisters. May cause an allergic skin reaction.

**Symptoms/injuries after eye contact**: Causes serious eye damage. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling. May cause burns.

**Symptoms/injuries after ingestion**: Harmful if swallowed. May cause burns or irritation of the linings of the mouth, throat, and gastrointestinal tract. May cause stomach distress, nausea or vomiting.

**Other information**: Likely routes of exposure: ingestion, inhalation, skin and eye.

SECTION 12: Ecological information

**Toxicity**

**Ecology - general**: Toxic to aquatic life with long lasting effects.

### SECTION 15: Regulatory information

#### Federal regulations

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

All components of this product are listed, or excluded from listing, on the Canadian DSL (Domestic Substances List) and NDSL (Non-Domestic Substances List) inventories.
